To whom it may concern

Dear Sir/Madam,

RE: RESTART PROGRAM – DESSO PRODUCTS

Since 2011 the Tarkett Group has been applying the **Cradle to Cradle®** principles at each step of a product's life. Thanks to this approach, multiple Tarkett products have been Cradle to Cradle certified™ at different levels (linoleum, wood, carpet, rubber and artificial turf solution).

In line with Tarkett's global sustainability philosophies we are proud to offer at a local level Tarkett Australia's national **Restart Program**, a collection service for all used Desso product when it reaches the end of its life cycle. Once collected, the product's various components will be broken down by one of Tarkett's purpose built factories and regenerated into new flooring materials thus fulfilling Tarkett's overarching **Cradle to Cradle®** principles.

We are proud to make this service available to you as one of our valued customers and product owners and look forward to partnering with you to contribute to our product sustainability story.

For more information or to arrange product collection, please contact your Tarkett Accounts Manager.

Kind regards,

Ralph Jorissen
Managing Director
Tarkett Australia
